

INTERNATIONAL STUDENTS ENROLMENT AT MERCY COLLEGE - 2009

Dear Parents,

Thank you for your enquiry regarding enrolment at Mercy College. We are pleased to open enrolment applications for the 2009 school year.

Should you wish to be considered for enrolment, we require completion of the accompanying Application for Admission Form. This should be forwarded to the College with translated, certified copies of your student's latest school reports, and the Registration and Administration Fee of \$AU200.00.

Students also need to produce evidence of competence in English. In some cases, it may be advisable to enrol in an Intensive English Language School in Perth prior to entry to Mercy College. The College can assist with this arrangement.

Mercy College is a Catholic, co-educational K - 12 College for day students, with an enrolment of approximately 1,540 students. The College is an expanding school with extensive modern buildings and facilities. Our College Prospectus is enclosed together with information concerning the life of the College, suggestions concerning guardianship and homestay accommodation, and fees for International Students for the year 2009.

All students need to be supportive of the Catholic philosophy of the College, regardless of their personal religious beliefs. Preference will be given to Catholic students.

In order to prepare adequately for the Tertiary studies, we recommend initial enrolment of overseas students at the Year 10 or Year 11 level. The admission requirements of Tertiary Institutions involve studies of units over the two years at Year 11 and 12 levels, and students need to be very familiar with the English language in order to be successful. Only high passes in home country examinations and evidence of a high level of English competency will qualify students for direct entry into Year 12.

Should you have any further queries about the College, its curriculum, or indeed any other matter, please feel free to contact the College.

Yours sincerely,

**DR TONY CURRY
